

**TITLE 14. Fish and Game Commission  
Notice of Proposed Changes in Regulations**

**NOTICE IS HEREBY GIVEN** that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 200, 202, 205, 220, 240, 2084 and 7891 of the Fish and Game Code and to implement, interpret or make specific sections 200, 202, 205 and 2084, of said Code, proposes to amend Section 27.80, Title 14, California Code of Regulations, relating to Ocean Salmon sport fishing regulations.

**Informative Digest/Policy Statement Overview**

The Pacific Fishery Management Council (PFMC) annually reviews the status of west coast salmon populations. As part of that process, it recommends ocean fishing regulations aimed at meeting biological and fishery allocation goals specified in law or established in the Salmon Fishery Management Plan.

The PFMC is expected to adopt regulation recommendations, similar to recent years, for the recreational ocean salmon fisheries in Federal waters (3 to 200 miles offshore) off the states of Washington, Oregon, and California for 2006. The various alternatives the PFMC will examine in the process of adopting the management options on March 10, 2006, for public review may include:

1. the minimum size of salmon that may be retained;
2. the number of rods anglers may use (e.g., one, two, or unlimited);
3. the type of bait and/or terminal gear that may be used (e.g., amount of weight, hook type, and type of bait or no bait);
4. the number of salmon that may be retained per angler-day or period of days;
5. the definition of catch limits to allow for combined boat limits versus individual angler limits;
6. the allowable fishing dates and areas; and
7. the overall number of salmon that may be harvested, by species and area.

The final regulation recommendations will be made by the PFMC on April 7, 2006. Upon approval of the PFMC's management recommendations by the Secretary of Commerce (SOC), the State must move in a timely manner to conform its ocean sport fishing regulations for salmon in State waters (0 to 3 miles offshore) to those agreed upon by the PFMC. Otherwise, preemption of State regulatory authority by the SOC could occur if State regulations are in conflict with Federal regulations.
